Translational research and solid state tumor biobank
and data axis**

COMMITMENT TO CONFIDENTIALITY

Whereas, as a personal member or a user of the *Cancer Research Network* (RRCancer) or as a user of its resources, I will have access to confidential information relative to clinical, administrative, banking and research activities of the Network;

Whereas, it is ethically essential to keep secret all information of confidential nature that I might come across during my work;

Whereas, I have read and understood RRCancer's policies and operational procedures applicable to my current workplace;

I agree:

1. To safeguard the confidential nature of all information that would be disclosed to me or that I would discover;
2. To manipulate the tissue samples and interact with the donors observing all ethics rules;
3. Not to disclose confidential information to RRCancer members unless, within my work context, it proves necessary to do so;
4. Not to disseminate passwords;
5. Not to transfer to anyone access cards or keys providing access to the samples and data, nor transfer any samples, without proper authorization;
6. To respect the existing rules and regulations, as well as RRCancer policies

Name of the person who will be in
with the material/data of the
RRCancer resource
